

- 6.** (5 points) There were 238 million bushels of wheat grown in Michigan in 1990 and the wheat sold for \$2.21 per bushel that year. In 1992, there were 242 million bushels grown, and wheat sold for \$2.00 per bushel in 1992.

- (a) What was the revenue from wheat in Michigan in 1990?

In 1992?

- (b) What was the average rate of change of the revenue from wheat over the period of time from 1990 to 1992?

- 7.** (5 points) A function  $f$  is known to have positive average rate of change on the interval from  $x = 2$  to  $x = 4$ . Which of the following numbers are possible values for  $f'(3)$ ? Circle all that apply.

(i) 3

(ii) 0

(iii) -2

- 8.** (9 points) Values of functions  $f$  and  $g$  are given in the following table. The function  $g$  is known to be invertible. Determine:

(a)  $f(g(3))$  \_\_\_\_\_

(b)  $f(f(3))$  \_\_\_\_\_

(c)  $f(g^{-1}(3))$  \_\_\_\_\_

$x$	1	2	3	4	5
$f(x)$	0	7	4	6	2
$g(x)$	1	3	5	7	9
