

7. (10 points) Let f and g be functions with the following graphs.

Use the graphs to estimate each of the following derivatives. Show your work and circle your answers.

(a) $h'(2)$ if $h(x) = f(x)g(x)$

(b) $h'(2)$ if $h(x) = \frac{f(x)}{g(x)}$

(c) $h'(2)$ if $h(x) = f(g(x))$
