

4. [12 points] The graph of a function $f(x)$ is shown below. The area of shaded region A is 3.1 and the area of shaded region B is 2.2. On the axes provided, sketch a well-labeled graph of an antiderivative $F(x)$ of $f(x)$ satisfying $F(0) = -1$. Indicate the x - **and** y - coordinates of all critical points and inflection points of $F(x)$ in the space provided.

Coordinates of critical points: _____

Coordinates of inflection points: _____
